SUMMARY

Web Developer skilled in JavaScript, React, and Node.js with strong backend fundamentals. Experienced in building full-stack applications and integrating AI-powered features. Seeking web development roles for college placements and external companies.

SKILLS

- Frontend: HTML, CSS (Tailwind), JavaScript, React
- Backend: Node.js, Express.js, JavaScript Asynchronous Programming, Java (Spring Boot)
- Databases: MySQL, MongoDB
- Tools: Git, Linux, Docker, Postman
- Other: REST APIs, Authentication, Deployment, DSA

WORK EXPERIENCE

Developer Intern — AI Agent & Automation
May 2025 – July 2025 | Lucknow, India

- Developed automation utilities integrated with Node.js and Python scripts.
- Assisted with building API endpoints and improving response workflow.
- Participated in debugging and version control operations.

PROJECTS

1. Modelise — Universal AI Model Hosting Platform

- Built a platform to host and deploy AI/ML models via a unified API, simplifying integration for developers.
- Designed backend architecture supporting model uploads, versioning, access control, and inference endpoints.
- Created web interface for model management, logs, and testing playground.
- Implemented REST APIs and integrated AI providers (GPT, Claude, Gemini) for multi-model execution.
- GitHub: ANSHAM1/Modelise

2. Portfolio Website — Personal Developer Portfolio

- Developed a responsive personal portfolio website showcasing projects, skills, and contact forms.
- Implemented smooth UI animations, reusable components, and mobile-first design principles.
- Integrated GitHub + LinkedIn + resume download and built sections dynamically via JSON data.
- Hosted using GitHub Pages / Vercel (you will update this later).
- GitHub: (Add once ready)

3. SentinelAI Dashboard — Full-Stack Visualization Tool

- Built a dashboard to visualize network intrusion detection results in real time.
- Implemented backend REST APIs and WebSocket updates for live monitoring.
- Improved UI/UX for better visibility of security events.
- GitHub: ANSHAM1/SentinelAI_Nids

4. AI Automation Tools — Full-Stack Utilities (Internship)

- Built automation tools including Instagram niche discovery and script generation utilities.
- Developed supporting UI forms, dashboard pages, and backend routes.
- Collaborated on debugging API issues and improving response workflow.

EDUCATION

B.Tech. in Computer Science
GLA University | Aug 2023 – Aug 2027
GPA: 8.14
